

# Package: RStudioStataConsole (via r-universe)

February 7, 2025

**Type** Package

**Title** RStudio addin that facilitates running Stata in RStudio's terminal.

**Version** 0.1.0

**Author** Sebastian Kranz

**Maintainer** Sebastian Kranz <sebastian.kranz@uni-ulm.de>

**Description** If you like to use Stata interactively on a web server (or in a docker container), you could access the Stata console version using a Terminal in an RStudio Server session in the browser. This small packages has three short addins that simplify this process. It is assumed that the Stata is installed and the `stata` command is on the path.

**License** GPL >= 3.0

**Encoding** UTF-8

**LazyData** true

**Depends** rstudioapi, haven

**Config/pak/sysreqs** make libx11-dev zlib1g-dev

**Repository** <https://skranz.r-universe.dev>
