

Package: repboxTableTools (via r-universe)

May 27, 2026

Type Package

Title Tools to characterize, test and repair extracted tables from articles

Version 0.1.0

Author Sebastian Kranz

Maintainer Sebastian Kranz <sebastian.kranz@uni-ulm.de>

Description While ExtractSciTab is only about heuristically extracting tables from PDF, this package contains helper function to characterize test and repair multiple versions of extracted tables (including AI extraction methods). It mainly complements repboxAI. To avoid that repboxAI becomes too cluttered, we put this into a separate package.
